Short Description

A 104 double-sided card deck containing Q&A excerpts from *The Spirit's Book* by Allan Kardec

Description

The deck consists of 104 double-sided cards, providing a total of 208 sides of information. They are printed in full color on thick standard coated art paper with a high-gloss finish. Each card measures 3.5 x 5 inches."

These cards are a study tool designed to introduce the fundamental principles of the Spiritist Doctrine, inspired by *The Spirits' Book* by Allan Kardec. They are not a game or a tarot deck but a way to explore spiritual philosophy in an accessible and thought-provoking manner.

Each card features a question and answer selected from *The Spirits' Book*, encouraging reflection and dialogue. While these cards provide an engaging starting point, they are not meant to replace the reading of the book itself. The selections focus on chapters that are particularly accessible and important for a foundational understanding, but a deeper study of the full text is highly recommended.
